

49" Dual-Sided In-Window Display

Overview

The 49" double-sided window display is designed for high-impact storefront advertising, providing bright, clear content both outward to the street and inward to customers inside the store. With built-in Android processing, flexible network connectivity, and reliable 24/7 performance, it offers an all-in-one solution for continuous digital signage.

Its slim commercial housing, efficient thermal design, and robust construction make it ideal for retail windows, malls, transport hubs, and any environment that requires highly visible dual-direction messaging.
