

10.1" PoS Touch Display

Overview

The 10.1" Android meeting room sign with LED indicators is a smart, compact display solution designed for efficient room scheduling and wayfinding. Featuring a clear, high-resolution touchscreen and integrated LED status lights, it provides instant visual confirmation of room availability from a distance.

Powered by an embedded Android system, the display supports flexible content management and seamless integration with meeting room booking platforms. Its slim design, low power consumption, and wall-mount form factor make it ideal for offices, corporate buildings, education facilities, and shared workspaces.

Key Features

10.1" Touch Display

Clear, responsive touchscreen ideal for room schedules, names, and booking information.

LED Status Indicators

Side-mounted LED lights provide at-a-glance room availability visibility.

Android-Based Operation

Embedded Android OS enables flexible app support and content management.

Slim Wall-Mount Design

Compact, low-profile housing suited for door-side and corridor installations.

Network Connectivity

Supports Wi-Fi and Ethernet for real-time updates and central management.

Low Power Consumption

Energy-efficient design suitable for continuous daily operation.
